Our Vision

Jibbit creates an ecosystem network to connect the worldwide cannabis community with the crypto world (200m +). A world to make the cannabis market completely independent of the financial system and its influences. By making use of the Blockchain technology, we demonstrate the value of this revolutionary movement of the crypto-community and how we can make the world a little better. Be there today to help making the crypto world accessible to the masses. Give the power back to the people!

This is Jibbit

Jibbit GmbH works on several software solutions for the cannabis market with three core topics:

Jibbit@Marketplace: is a shop-in-shop solution for businesses in the global cannabis market to offer their products to end users.

Jibbit@Runner: is a shop-in-shop solution for cannabis delivery services in the USA from the local area to deliver legal recreational cannabis to customers.

Jibbit@Doc: offers patients, doctors, pharmacists, health insurance companies a solution for the medical cannabis sector in Germany. From online consultation to solutions for future recipe forgery through the use of blockchain technologies.

All services can be paid in JIB or another crypto currency.
